

The ideal device where a temporary communications and alert system is required on short notice, to provide Electronic Security and WHS/OHS related requirements where no physical communications cabling is available.

PortaGuard®

ADVANCED FEATURES AND OPTIONS

Encrypted / Secured Wireless Communication and Polling to the monitoring Centre

Depending on the level of monitoring required (ie from Residential to Major Financial Institutions), various Data Communication plans and polling are available.

Emergency Lighting

2 X 10W LED Flood Lights, with automatic rechargeable standby battery. Can be activated on any programmed event (eg Mains Power Failure, EVAC etc)

Motion Detection Alarm

Dual Technology Detection Sensors

Audible Alerts

- Sirens/speakers enclosed in vented steel hood
- EVAC Siren (conforms to AS 1670.4) with Voice Over enabled. Custom recordable messages, using built-in microphone

Security Camera Surveillance

High Resolution Surveillance Cameras with Local Recording and Remote Viewing

Visual Alerts

Red, Blue, Clear and Amber Strobe lights provide various system visual alerts

Emergency Telephone

Simple One Button Operation.

MCP Manual Call Point Buttons (Key Reset)

Panic / Security Alert Button
Fire / Evacuation Button
Medical / First Aid Button

Fire Extinguisher Monitoring

A monitored enclosure to house a fire extinguisher. Opening the enclosure door will activate alerts (as programmed) as well as report the event

Other Safety and Site Specific Equipment Monitoring

Access or removal of First Aid Kits, Fire Blankets, O2 Masks, Defibrillators, Alcohol Breath Analysers etc. can be monitored.

Customisation

Should the combination of any or all of the options not fulfil your specific requirements, PortaGuard® can be individually customised. The system can be programmed to function and interface to most types of auxiliary detectors/sensors, to suit your exact specifications and requirements.

Available on
IOS Android Windows

PortaGuard® is a fully portable, all-in-one, wireless integrated alert and monitored system, which can be customised and optioned with:
